Summary

I am a BCA student, aspiring to be a full-stack developer with experience in HTML, CSS, React, and PostgreSQL. I have a good understanding of JavaScript, node.js, and Express.js. I have experience building responsive web applications and currently working on VastuGrid, which is a platform for civil engineers.

Skills

- Frontend: HTML, CSS, JavaScript, React
- Backend: Node.js
- Database: PostgreSQL
- Tools: Git, GitHub, Netlify
- UI/UX: Figma

Projects

BiharBees :
Tech: React, JavaScript, YouTube API, CSS

- Developed and deployed a responsive frontend website with a modern and user-friendly interface.
- Integrated YouTube API to fetch and display dynamic video content efficiently.
- Optimized UI performance and ensured smooth experience across devices.

VastuGrid — Platform for Civil Engineers
Tech: React, PostgreSQL, Cloud Storage, EmailJS

- Developing a modern web platform for civil engineers with a responsive and user-friendly interface.
- Integrated EmailJS for contact and communication features.
- Used cloud storage for managing and storing project-related data.
- Implemented PostgreSQL for backend database management and data handling.

Education

Bachelor of Computer Applications (BCA)
Galgotias University
2024 – 2027

Certifications & Achievements

Participated in Hackathons and earned participation certificates for teamwork, problem-solving, and project development.
